

THE SERVICE

Vortice Limited is a part of a multinational group employing over 400 employees worldwide. Established in the UK since 1977, Vortice has over 100 years combined knowledge and service in combatting mould and condensation in the residential sector.

1. BOOK A SURVEY

- Visit vorticemouldsolutions.co.uk and complete the easy to use form.
- Once received, the request will be passed to one of our employed surveyors who will arrange an appointment to visit the property.

2. SITE EVALUATION

- The site evaluation will include a review of the current condition of property and identify any problems found.
- Recording all instances of condensation, mould growth or damp within the property.
- Measuring the performance of any existing mechanical ventilation equipment using calibrated anemometers.
- Conducting an assessment of the current ventilation strategy and benchmarking against the relevant building regulations.

3. SURVEY REPORT

- The housing provider will receive a written report detailing the outcome of all items recorded during the property evaluation.
- Survey report measures all relevant air quality data provided.
- Recommendations will be made to ensure compliance with current regulations.
- A fully costed installation solution will be provided.

5. COMPLIANCE CERTIFICATION

- The housing provider will be issued with the relevant Electrical Certification and a Building Regulations Compliance Certificate as a record that the ventilation system now meets Building Regulations Standards.

4. INSTALLATION

- Complete service for both replacement and new installations.
- Engineers hold all relevant ventilation, electrical and asbestos qualifications.
- Engineers will explain all work to the resident/tenant and leave relevant information.
- New electrical installations will be tested in accordance with BS7671.
- Vortice will notify the local Building Control Body that the work has been completed.

THE VORTICE SERVICE
